

An Example of Thesis at the Graduate School of  
Science and Technology  
Degree Programs in Systems and Information  
Engineering

Taro Tsukuba  
(Master's Program in ● ● ●●)

Advised by Daijiro Tsukuba

Submitted to the Graduate School  
of Science and Technology  
Degree Programs in Systems and  
Information Engineering  
in Partial Fulfillment of the Requirements  
for the Degree of Master of ○ ○ ○○  
at the  
University of Tsukuba

Month 20\*\*

### **Abstract**

This is a sample document for writing a thesis which will be submitted to the Degree Programs in Systems and Information. The main purpose of this document is to reduce the author's trouble in making title. Of course you can create your title page from scratch. But your style must fulfill the requirements such as margins.

# **Chapter 1**

## **Introduction**

This is a sample document for writing a thesis which will be submitted to the Degree Programs in Systems and Information. The main purpose of this document is to reduce the author's trouble in making title. Of course you can create your title page from scratch. But your style must fulfill the requirements such as margins.

This document is also prepared for intention of unifying the thesis style. You can write your thesis based on this document. This document does not include how to write good thesis. So, you should consult advisor(s) about the concrete example of thesis and other details.

# Chapter 2

## Format

In this chapter, we show how to fill the title and body.

### 2.1 Title

Title page has to include Title and Author and Major Field and Advisor and Date.

The cover page, to be created by `\maketitle`, describes each string corresponding to the following items.

Title: Title should be described in the `\title`. Enter `\\` if you want to xhanfe the line. However, that if you enter `\\` at the end of the title, the compilation rill not pass. Note that the style file "sie-en.sty" must be changed for titles with more than four lines, because the cover page will be overflowed.

Author: Author should be described in the `\author`.

Degree: Degree should be described in the `\degree`.

Advisor: Advisor should be described in the `\advisor`.

Program Field: Program Field should be described in the `\programfield`.

Date: Date should be described in the `\yearandmonth`.

### 2.2 Body

Body should be described in single column.

Table 2.1 and Figure 2.1 are the examples. Tables and Figures must be shown with a caption. A caption for table will be put at the top of the table. A caption for figure will be put at the bottom of the figure. Tables and Figures should be referred in the context.

Table 2.1: Sample of Table

Year	1st	2nd	3rd	4th
1995	85	92	86	88
1996	83	89	90	102
1997	88	87	91	112
1998	144	93	90	115

Fig. 2.1: Example of Figure

References should be numbered and referred in the context. We will show concrete example of referring to a related work as [2].
