

# 【How to Calculate your GPA for the MEXT Scholarship】

To be eligible for the MEXT scholarship for graduate students, you need to have a Grade Point Average (GPA) of **2.30 (out of 3.0) or above at the previous school**, and the evaluation on the same level is expected during the scholarship payment period. Using the MEXT-specified grade conversion chart and GPA calculation formula below, please check your eligibility.

## <GPA Calculation Formula>

$$([\text{No. of GP3 Credits}] \times 3) + ([\text{No. of GP2 Credits}] \times 2) + ([\text{No. of GP1 Credits}] \times 1) + ([\text{No. of GP0 Credits}] \times 0)$$

---

Total No. of credits for all registered courses

References: No. = Number , GP = Grade Point

### Note

If the courses do not go by the credit system, replace the "number of credits" with "number of courses" registered.

**Example:** If your institution uses a typical North American grading system (A, B, C, D, and F) or a system comparable to it, you may use the 5-level scale.

Course Title	Grade	Credit		JASSO Grade Point (above)		Total Point
Japanese 1	A	3	×	3	=	9
Japanese 2	B	3	×	3	=	9
Intro to Japanese History	B	3	×	3	=	9
Intro to Business	D	3	×	1	=	3
		12 credit in total				30 point in total
		$\frac{(9 \times 3) + (0 \times 2) + (3 \times 1) + (0 \times 0)}{12}$		=	$\frac{30}{12}$	= <u>2.5</u>
