Master's Thesis (including the report of advanced Research and Development) Specification

% [Master's program in Intelligent and Mechanical Interaction Systems] There are some different points ondrawing up.

- 1. Paper
 - 1) Use A4 format only, 21 cm x 29.7 cm (portrait format). There is no limit to the number of pages.
- 2. Format
 - 1) Your thesis must be, as a rule, typed in English or Japanese.
 - 2) The color of letters is black, but that of graphs, diagrams and attached letters is free.
- **3**. Front Cover & Spine and others
 - 1) Please make Master's thesis as standard format for the chart below and the Word or LATEX.

$\ll Q \& A \gg$

	Q	Can I change the style of the cover?
1	А	No, you cannot. There are some students who use underlines or a frame with the title. We cannot accept those theses.
2	Q	On the cover page, can I write the date of submission instead of completion for the course?
	Α	No. You have to write the date of completion for the course.
3	Q	I belong to the Department of Risk and Resilience Engineering or the advanced IT special program in the Department of Computer Science, and am going to write 'the report of advanced Research and Development' instead of "Master's Thesis". What should I do?
	А	There is a special format for 'the report of advanced Research and Development'. Please refer to the webpage for students. If you need detailed information, ask academic office for Degree Programs in Systems and Information Engineering .

Advised by Daijiro Tsukuba

Submitted to the Graduate School of Science and Technology Degree Programs in Systems and Information Engineering in Partial Fulfillment of the Requirements for the Degree of Master of OOOOO at the University of Tsukuba

Abstract

This is a sample document for writing a thesis which will be submitted to the Degree Programs in Systems and Information. The main purpose of this document is to reduce the author's trouble in making title. Of course you can create your title page from scratch. But your style must fulfill the requirements such as margins.

Chapter 1

Introduction

This is a sample document for writing a thesis which will be submitted to the Degree Programs in Systems and Information. The main purpose of this document is to reduce the author's trouble in making title. Of course you can create your title page from scratch. But your style must fulfill the requirements such as margins.

This document is also prepared for intention of unifying the thesis style. You can write your thesis based on this document. This document does not include how to write good thesis. So, you should consult advisor(s) about the concrete example of thesis and other details.

Chapter 2

Format

In this chapter, we show how to fill the title and body.

2.1 Title

Title page has to include Title and Author and Major Field and Advisor and Date.

2.2 Body

Body should be described in single column.

Table 2.1 and Figure 2.1 are the examples. Tables and Figures must be shown with a caption. A caption for table will be put at the top of the table. A caption for figure will be put at the bottom of the figure. Tables and Figures should be referred in the context.

Year	1^{st}	$2^{ m nd}$	$3^{ m rd}$	4th
1995	85	92	86	88
1996	83	89	90	102
1997	88	87	91	102
1998	144	93	90	115

Table 2.1 Sample of Table

Figure 2.1 Example of Figure

See Help file or related document of Microsoft Word [1].

References are numbered and referred in the context. We will show concrete example of referring to a related work as[2].

^{6.} Underline the name of the applicant.

^{7.} Create the Index referring to "The Points to Complete in the Index of the Thesis".

[The Points to Complete in the Index of the Thesis]

The Index of the Thesis is a list of the single or joint authorship papers of the applicant's writings to which the following apply, (a) to (d).

If you do not have any applicable papers, fill out - 1 "Subject of the Thesis"- only.

- (a) Papers with review and have been published
- (b) Papers with review and have been accepted
- (c) Papers with review and is being submitted, but not accepted yet
- (d) Papers presented without review at a lecture meeting, etc. in Japan

1. [Subject of the Thesis]

Fill in the subject of the Thesis being submitted. To the titles in English, affix the Japanese translation enclosed in parentheses.

2. [How and when the publication in print was made]

Fill in the papers <u>related to</u> the Thesis being submitted and applicable to the above (c). **(Example)**

The essential part of this Thesis is already published / planned to be published in the papers listed in the "Reference Papers", and also is being contributed as the paper below.

(1) <u>Taro Tsukuba</u> and Hanako Tsuchiura, "Getting All Solutions to Constraint Satisfaction Problems in Polynomial Time", Journal of the Japanese Society for Artificial Intelligence.

3. [Reference Papers]

Fill in the Papers <u>related to</u> the Thesis being submitted and applicable to the above (a) and (b), categorizing them into (a) and (b).

(Example 1)

The essential part of this Thesis has been published as (1) and (2) in the following Reference Papers.

- Published Papers

(1) <u>Taro Tsukuba</u> and Hanako Tsuchiura, "A Frequency Domain Repetitive Control Algorithm for Robot Manipulators", Proc. of the 2nd Motion and Vibration Control Conf. Yokohama, Aug. 2007, pp.12-20

(2) <u>Taro Tsukuba</u>, "Research on XXXXX", Journal of the Japanese Society for XXXXX, Vol.20, No.2, 2006, pp.234-241

(Example 2)

The essential part of this Thesis are planned to be published as the following papers

- Papers Accepted

(1) <u>Taro Tsukuba</u>, "Implementation of Distributed Robot Control Systems with Transputers", Trans. Of the SICE

(Transactions of The Society of Instrument and Control Engineers) (Accepted and to be Published in Vol.7, No.4) (Example 3)

The essential part of this Thesis has been published as (1) of the following, and the paper of (2) is planned to be published.

- Published Papers

(1) <u>Taro Tsukuba</u> and Hanako Tsuchiura, "Behavior of Misfit Dislocations in GaAs Epilayers Grown on si as Low Temperature by Molecular Beam Epitaxy", Jpn. J. Appl. Phys., Vol.7, No.4, 2007, pp.23-30

- Papers Accepted

(2) <u>Taro Tsukuba</u>, "Implementation of Distributed Robot Control Systems with Transputers", Trans. Of the SICE (Transactions of the Society of Instrument and Control Engineers) (Accepted)

4. "Other Papers"

Fill in the Papers with review <u>unrelated to</u> the Thesis being submitted, categorizing them into above (a) and (b). Or, fill in the presented papers <u>without review</u> at a lecture meeting, etc. in Japan as described in above (d), indicating that interest. To fill in the papers, refer to the way of filling in the papers in "Reference Papers".

別記様式第5号

論文公正に関する確認書 Statement of Research Ethics

理工情報生命学術院長 殿

This date equal or later than the above date.

To: Executive Dean, Graduate School of Science and Technology

私は、提出した学位論文について、研究不正行為(捏造、改ざん及び盗用等)は行っておりません。

I confirm that there is absolutely no breach of research ethics (fabrication, falsification and plagiarism) on the submitted thesis.
