

# Training Seminar for Teaching Assistants AY2023

**-Participation in Training Seminar for TA is Mandatory-**

Now that TAs are involved in many classes, the role and ability of TAs hold the key to creating high-quality classes.

This time, we will hold a TA training seminar aimed at deepening understanding of the role of TAs as an educator, basic mental attitude, and support for scoring reports.

**This workshop is necessary for teaching assistants, so graduate students aiming to become TAs should definitely take it.**

Even students who have attended in the past, we encourage to take the course every year.

In addition, we are looking forward to a wide range of participation, including newly hired teachers and teachers who use TAs in their classes.
