

# Training Seminar for Teaching Assistants

Participation in Training Seminar for  
TA is Mandatory

Now that TAs are involved in many classes, the role and ability of TAs hold the key to creating high-quality classes.

This time, we will hold a TA training seminar with the aim of deepening understanding of the role of TAs as an educator, basic mental attitude, and support for scoring reports.

**This workshop is necessary for teaching assistants, so graduate students aiming to become TAs should definitely take it.**

Even students who have attended in the past, we encouraged to take the course every year. In addition, we are looking forward to a wide range of participation, including newly hired teachers and teachers who use TAs in their classes.

■ If you are undergraduate students and are to work as TAs after April, please take the training seminar after entering the graduate school, not during your undergraduate enrollment.

■ To attend, you must sign up for the “Office365 EES Benefits”.

New students, in particular, should read the “Online Class Guidance” after obtaining a Unified Authentication System ID and password, and prepare accordingly.
